

Eclipse: Book 1: Beginning

By: Ryan Spivey

A novel

Dedication to my Alpha teacher, Ms. Blair and
fellow Alpha students, Logan Nichols, Brooklynne Rinaldo,
Belle Smith, Perna Ravender, Lizzy Solomon, Mac White and
Caleb Pierce & my family to encourage me to keep on going.

Read the important author's note

Just a reminder if you experience one of these out of the ordinary things shut the book give it to the library do something with it if you do not experience anything you are perfectly normal this book is for your entertainment if you know anyone who experiences these things and is not normal do not let them read the book if you are not normal the strongest of your kind the Emeko (boys) and Mekomda (girls) do not worry me and the other stronger ones are doing our best to keep anything or anyone away.

Alica

I did have the best and most amazing time of my life but if you count some of these things it was pretty scary I am still scared that he is after me I did not know that I was abnormal until that one school day this is not too smart to try a big daredevil stunt like these in the book if you are forced to well you're out of luck, this is scary.

Matthew

I just can not believe how this happened I was a seer I just could not handle the truth when I was young I could shoot fire from my hands I just knew that I was not normal.

Intro chapter 1

Alica

Alica was running for her life away from the creepy man when all of the sudden like lightning she awoke.

She ran down stairs to get breakfast when she got down stairs there was a creepy lady dressed in black talking to me about how great I was (Alice) I was a fourteen years old blond hair and I love t-shirts and shorts with a knife my dad left me before he died in a car crash. Bang all of the sudden her door slammed shut. she was only eleven how could she be great, I'm one of the most picked on people in my grade, how could she? Time to go to school a nightmare ,she talked to her only friend kristey, "seriously I have math first period. Great just what I need roots and blah,blah,blah" thought Alica sarcastically. "Then I sweat then I get our germ free biology teacher woo hee I'm gonna get in trouble yay" she said to her friend.

Chapter Two : The Letter

Alica went to her locker to get biology books from her locker but instead of books she found a letter in her locker that read:

to: alica
from:

meet me at the pizzeria on 32 park drive New York
Don't worry I already checked you out of school I have
your backpack .
sincerely Katherina Raven Qantas Lamond

I had no idea who Tisreank was better go
eat some pizza and see who that person was.

This does not look like a pizzeria alica
thought she then went inside and found the owner
of the letter she asked "do you still had the letter?" I
said yes. She asked me for it and I forked it over
then burned the letter she said I have an important
quest for you.

chapter 3

kristean

It's time to know that your parents did not die in a car crash they died in this quest and your the only one that can do it you have dangerous things around the Earth there is objects you need to find you need to gather together to stop him. "Who are you" alica asked "I am kristean" she said. Then who sent me that letter? "I did!" She said, a different way I mixed the letters in my name up. you will find someone on your journey and you will know if it is that someone. He will have the only blade that is the same as yours in the world. I have a majestic blade look in my pocket. Sure enough there was a dagger in there. How did you do that I am a sorcerer and what am I?"

A fortune teller, tell me what I am thinking. Is she the one.

"I think I am the one. Time to go to the jet."

The jet is about to crash we have to jump three two one jump I felt like I was flying. Like a rush we were on ground. I was in Egypt is where you have to go find the one once you find him take him to the pyramid of Giza then after she said that I headed for Cairo and another American he was a boy and nine years old he was a guy with dirty blond hair jeans and ripped t-shirt this part was shocking he had the exact same blade! He must be the one I can feel it I walked up to him and asked him his name he said Matthew. I whispered we need to go to the pyramid of Giza fast. I think you need me for something he thought yes she said somehow she read his mind and he read hers. They did that all the way

to the pyramid of Giza.she and Kristean told Matthew
what we knew.

chapter 4
mobosimatrine

We were sitting in the plane trying not to send mind messages to anyone but each other trying to comprehend this strange quest and who Imostrin was the person I've seen in my dream and how we stop him. "I know how my dream ends and I do not like it." I thought. "This is going to be fun going to Venice," said Matthew. Apparently someone weird is on the plane I can feel it. They thought in harmony. I think it might be a mobosimbus. Whispered Alica. A mobowhatsa. whispered Matthew. One of his body guards.

Chapter 5

Giza

They are in a cafe ordering food. In Mapodocadeop, Mondosim, for short, a secret country we have to find sacred rocks of Amura and Anubis the Egyptian gods that will give us the next clue. We need to check places everyone goes. Like the international rock tour. But this time look for a rock with a A@^ on them those will show you the next part of the adventure. What about the minion that is on the plane? asked Alica. I will get him. said Kristeana. She flicked the table and then everyone sensed he/she was gone like a fleck of dust in a tornado. I sense we do not have much time before he finds us and we have to find those rocks. We must go and look for either the oldest rock and natural rock. I have a question you told us Amura and Anubis were from Egypt why are we in this country. Is he trying to throw us off track? Exactly. We headed for the rock tour and boarded the trains.

Chapter 6

False Alarm

As they slid down the tunnel and plunged into darkness as they felt something ancient and something natural - the rocks!

"They are not the right ones they will not be near each other if they were on the right track. We descended to the deepest part and oldest that amura these can not be them either these carvings are recent. still not it guess we will have to jump out of the train."

"The what!" we cursed.

"I will slow down time then you and me will be at normal speed," said kristean

"Okay we jump on three one two three jump," I said

The train slowed down everything did except for us. "Where is Kristen she died I know it. To bad we can not have a funeral wait I think I found something the rock of amura and Anubis ..." Said alica.

They walked down the cold narrow passageway.

Chapter 7

Anubis's

rAn^e*@w^i\$!?IAr@i#s*e[ancient writing]

"I have no idea who or what this rAn^e*@w^i\$!?IAr@i#s*e is or was." Said Matthew.

"We always have no idea who these people or things are." Whispered Alica.

"Keep your voice down you do not know who we might run into."

"They got the other stone at last then they headed to they hotel room they rented they booked a flight to Paris to count the steps of the Eiffel tower. For tar and corn syrup amount in grams, finally math has something helpful and unique! Ingredients I feared of since my nightmare. We have to get them before you-know-I'm-not-gonna-say-it does."

"Do we have to?" Asked Matthew.

"No we don't."

Alica sarcastically "Of course we do dumbo."

She said "who else will do it?"

They figured out the code it was "one will rise" the other rock said "when the other shall fall"

"These words never make sense." Matthew said

"They are as clear as muck."

"What do you expect they do not want normal people noticing it." Alica pronounced. "Now we have to fly that will be fun, a bunch of airsick and blah."

They flew to the Eiffel tower cafe then they had to count the steps. "199...200...201...202 I'm bored 203...204...205" Alica and Matthew cursed.

They finally got to the top when they said the last step they fell down a pit down...down and..... plunk. "I smell burning wood in our apartment." Shouted matthew. "That is weird, how in the world is there a fire in here.

chapter 8
Lilli and speed

*

out in the woods there were two odd companions. A horse and a dog they were very energetic and athletic. Both former pets and love running through the breeze feeling like they were free from all dangers.

*

“Are we lost I’m going to collapse can we rest.” said Alice complaining.

“no we are not this is helpful.” Blurted matthew. “these are my two friends Speed and Lilli they are great companions can we take them on our adventure.”

“Are they trained.

“Of course we need to get a privet plane because they will not allow dogs or horses on the air planes so might as well get one.”

*

“I love this airplane food more than that dusty old french food, candy and chips.”said matthew.

“were are we going to find corn syrup?”
Asked Alice

“obvious a corn syrup factory no brainier.”
said matthew how much grams.”

“l.d.k... I don’t know what is your lucky number.”

“345,575,899,783,150,875,200.”said matthew.

“serio--” bump “what was that.”

“Speed broke his leg from the bump we will have to wait till he is recovered, which will happen after the quest.

“You take Lilli and continue I will aid to Speed.” said matthew

“We could just get a vet.”

“True.”

chapter 9

betrayed and in magic

twenty minutes later

what do you mean she betrayed us this is going to be a hundred times more difficult.

boom there it goes the pouring sensation of rain luckily i brought a tent snapped his fingers and a tent appeared out of thin air how did you do that just think what you want she did it and a computer showed up she typed in www.coolmath-games.com then got snow then matthew gave them puzzles like maiaerdn I found it out it was I am a nerd then this happend boing we got the corn syrup then we had major problems we were betrayed by Kristean with her magic, bang... fireballs!? Run and now you have to face me alone." matthew said catch and I caught his knife and aimed it at her and threw it she let it hit her it went through her if she could do that I can I launched a fireball, bad thing it burned me because i had not learned how to change to a different type of magic matthew told me how to change to that kind of magic. I tried the fire ball it went through her again. I tried electricity she screamed with a high pitched fizz like soda exploding.

"Mayhem, this will be fun she was a hologram one that could still affect people but could not be affected."

Chapter 10

what happens on an airport conveyor belt with a dog and a horse with chocolate

Jumping on the conveyor belt with your brother is not very smart especially when you are allergic to cats all the sudden we were on the conveyor belt and we dropped from the conveyor belt 3,000 feet down well fine three feet Mathew having the time of his life me screaming for my life. I held onto a suitcase that popped open with weird clothing the contents scared us so much I did not know how to describe the fear, it always feels like something lurking you. Especially when something is we both know that math class is scary enough even when you get history next no one makes it through the horror of school. Now we get our old teacher well at least she is proposed as one but she scares us she made me do this problem $89-30+500-10,000 = F-$. I should have gotten a a+ she is worse than this conveyor belt rocking and screeching scaring us. they found a box full of gourmet chocolate lovely. This day was perfect too perfect there must have been someone trying to make us forget about the...the PLANE hurry there's not much time the flight leaves in 30 seconds in counting. kristean no I really mean kristean stop fooling around- she is in one of the suitcases get the water

stormready because she has fireballs and I can't see her any more try. x-ray vision. she there is more than one of her 20 actually only one is the real one and why is she eww matthew it is not time to decay that was not me kristean did it she popped out and said who dare accuse me of such an childish thing alica bobvangard nightday.

“Sounds like our teacher has a tempertantrum.” choked matthew.

“Or should I say a texas-sized tempertantrum of a teacher.”

“Do I need to show you how the master does his work?”

Then a cage appeared around him

“Waaa waa waa let me out” He screamed

she did not open the door loose the amazing stuff I can beat you any time any place any dimension.

“Loose against me and fear me why we start it matthew you can not speak of this any how anyway I will lose my teaching degree. okay if we win no more work for the rest of the year more work for the others and a free graduation pass and you have to ban your magic all the sudden she left in a flash. She is an alien no I really think she is an alien how can she not be harmed by electricity and how can sun power generate without sun.

“You have a point and stop getting weird and techno powering and technical in any way. Try flashing out.”

“Okay it worked flash out your self she is scary enough as a teacher.”

chapter 10

over and under again and again back over then under

“Lolli pop lolli pop oo a lolli lolli pop.” sang alica

“stop singing that sto o op singing that.” sang matthew in tune of lollipop.

“WE NEED COOKIES. WE NEED COOKIES. WE NEED COOKIES. WE NEED COOKIES.” came a chanting voice “WE NEED COOKIES. WE NEED COOKIES.WE NEED COOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOKI IIIIIIIIIIIIIIIIIIIIIIES.”

“RUN.” shouted alica

the roof came cracking down down. “run faster.”said Matthew almost out of breath.

Scrambling down the stairs alica pleaded for some helpful force. then kabam they found.....cookies?! Lets sleep for the nigh-
"Screech"

"Bald eagle with golden string going over and under again and again back over than under through his legs at four o'clock at rain time." shouted Matthew.

"No I mean really it is four o'clock and raining."

"great just great literary we are steaming hot I felt like I'm in a volcano."

They went on and on and on in the rain.Until they found a perfect hotel. It had to be affordable. Most important kristean free."

chapter 11 the haunted room

Why did the toilet flush and no one was in there. Said Matthew. The walls closed in closer and closer we fled the room and left a note, it said:

Of any circumstances do not let anyone in this room! Exception for Kristean Renato.

“That will do the trick.”

The toilet flushed again and again and our room was flooding this is worse than kristean. just let kristean not have to pay and walla she will go for this room no time.” Said Matthew.

Chapter 12

roller coasters with animals

**You know I do not like roller coasters. said
Alica**

We just have to jump off it on the lift hill pretend that the lap bar is down then run. They found the object they were looking for three inches of real redwood. Then security guards came. They ran and ran finally they got to the end matthew said that he needed to go to the bathroom and was hungry. Alica had heard enough of his complaining. She would have jumped out of a roller coaster if she could oh yeah she already did that! She felt like that matthew was sleepy and she was too. She then had to let him go to the bathroom after explaining to the owners that it was a surprising flash mob and he loved it so we had to dance on the roller coaster for another show. Then we got food and our flight landed with a crackle of thunder.

chapter 13

Arctic ocean 3:24 A.M. May 26 2012

"The arctic is freezing our plane landed on an oil thingy mabobber."

"iiiiitiii s no o o t w tw tw oo ba ba ba ba bad."

yes it is basically we have to sabotage alica's and that crew's flight."

*

"Why is there snow in the south America oil derrick?"

"the radar says we are ma-."

"this is your new captain speaking your other captain just passed out and we are having a major detour and welcome to the arctic ocean, please no need for seat belts because amy and jacan are skydiving with alica and matthew with their two pets lilli and speed are our lucky competitors we picked them out of a hat.

They grabbed their jump suits and landed on the frosty ground. They found the lucky amount and realized the plane abandoned them. they found shelter food and everything they needed to survive they had a hard time scuba-diving in oil trying to find the emerald ring encrusted with ruby stones. we always have to be unfortunate at least we still have each other with still the glowing ring with her the next step to victory. I have to do this alone. this is not going to be easy this is like playing a game of cat and puma they have been trained i have not they do not know what it feels like to be the cat.

*

this message is forwarded please do not worry we are running out forwarded back of super precious

time play this back make sure you do not miss the 3rd word

secret message is coded sent by Kendre Octane Raimondo.

Who is that person and what is up with coded messages and between the words.

“beep bop bop beep woo woo woo swi swi scriiiiiiiii.”

we will receive a letter right about now.

instead of a letter they found the letter owner sister of Kristean but no were near as evil she said she needed help with that pest we told her every thing we needed and volunteered to help us on our journey the rest of the way.

How do we know your not going to do the same thing your sister did

i would not i am not a sorcerer i am a fortune teller on the level known as sanctrum V954 concerener IV56.

matthew is on jandoami R657 sirentener WC39 and you are on thee same level as your parents tiesemdrum N958 frienetener PZ27 the level where you make your choice the white kingdom and the black dungeon...

Chapter 14

the rescue

Millennium amount of force i have heard of the roller coaster but how can that much force be on the hall megabytes,gigabytes, and microbes that happened at that off place to generate power for computers known as Frigga acid and Sluice acid. well we need our plane in a bit because in a few minutes we have to get to the magic kingdom in Florida our flight is going to be here in about five minutes spoil alert a tsunami is going to be here in four minutes fifty seconds we need to hope the jet gets here about twelve seconds sooner or we have a flood and we are going to get out of here I see it but its going to be a problem that the tsunami will wash our jet to Florida great magic kingdom here we come who knows space

i said matthew recognize any space thing whisper it to the speaker well now here it comes.

swisssh.

helicopter coming get on here we are lets wait in line there is no line so we can just hop on shhh woووو.

*

“Saturn black hole and cosmic Jupiter stars milky way sonic boom spaceman and...comet.”

“Beep boom.”

"If your names are not alica and matthew please go away.

"We are."

You can ask for something space-relative or leave I am the great seer of space know as Corey Domino Defendants.

"We ask for a rock from every planet in the milky way."

*

They head to their next adventure unknowing that they will reveal a secret of true facts this was protected since they died.

*

Run we have to run this place will close and seal in about twenty minutes till our next generations have been created the cold secret family case files are top-protected you can't even get your own unless their is history about you these things are only seen by the owners and ligation's workers.

"Your ID, if you do not exit is right there." Said the man

We do not have ID you must know us Alica and Matthew our parents died the greatest explorers ever we have to find out some important stuff on our family and relatives. Said Alica

"We don't have a case file but we know who ever goes on the journey has to have great luck to find what they are looking for your parents did not die from the trip it was right after the trip. If you plan on going you need some good gadgets like composethjiopn grosedgsh tyei and yiontyen." said the man
Thank you. said alica

chapter 15
Chianti breakfast

“Guess we get to have Chianti breakfast for breakfast.” Said Alica. A fifteen year old girl that is driving a pick up truck.

waiting in line

“would you like to try our new perineum roast coffee for three dollars.’ The cashier said taking Alica’s order

“no.”

“Are you sure you do not want to try our new perineum roast coffee.” She tried to tempt Alica again

“Yes we just want two bagels and two waters.”

“You total five hundred bucks at the first window”

“What.” She said in astonishment

first window

“Excuse me how do I have to pay five hundred bucks?”

“\$249 for 248 bagels you get the last one half off and one of our new perineum roast coffee.” She said adding it up.

"We asked two bagels and two waters." She said thinking that the cashier was as dumb as a rock.

"Oh yeah, that would be six dollars."

second window

"There you go 249 bagels one coffee."

"We ordered two waters with two bagels."

"Here you go then."

"Thank you."

"Are you sure extra sure you do not want to try or new coffee."

"yes!" She said finally losing it and yelling at the man

The car in front of you will not move.

Car move up move up. said matthew.

why is the car lazily just staying there? asked alica

I don't know. said matthew impatient

Oh well.

chapter 16
After time and torn and tossed apart

What do you mean by that if they get all those objects there goes time and we are stuck in...said alica
After time this means if we do not battle we head straight to after time chaos and extreme conditions. said matthew

well at least we can transport to disaster or fame. He won't fight we know that and I can't believe it Kristean is instep well however you say his name I can't trust her sister I bet we aren't even related well I sorta can because we know she is my dad's sister and my mom's trusted one but they can always do something someone can betray you at any moment.

this is a very untrustworthy game I do not even know if I can even trust you you might be the betrayer.

this game is tearing us apart our parents died doing this what different does it make for us.

I do not even know if you are my sister if we give up they are going to come for us we can not ignore it but this is very dangerous and we can not tear apart there is some thing coming for and we will fight until our hearts stop but we have to try we are talking about the world I've had dreams about this but never caught the end some source of electricity is three inches away from you. then I wake up never caught the end.

we always have to be aware and where was this place exactly?

I have no idea this place was completely made of plectra.

this has to be some place ancient and this is...a...temple of Kimodrai and koined...

that is kristean's ancestor we have to beat kristean then koined and kimodrai.

We gotta go

Ok.

We have to find the last thing on our list but there is not anything on our list that is the whole point what ingrediant that can make triontal is tormanto.

tiomato?

no t-o-r-m-a-n-t-o tormanto.

what is that.

it is something that can change into anything it can turn into a frog ice cream gum on the bottom of my desk. gum on the bottom of my desk! that is where we can find it and we need the most powerful one. whoever touches it will posses the most power ever known.

Ok but how did I run like two hundred miles an hour to get here?

Your first efienatal has arrived.

what is that?

we were chosen for this because we are the only people on earth that were born to have these.

So I have to run carrying you Speed and Lili

correct lets go.

avoid the major highways streets and anything like that people are very suspicious these days they have no idea what you are up to and they want to find out and they will.

this is no joke everyone is after us mortals immortals even our own race is after us this is coming to quick to fast what chance do we have our parents died doing this because they trusted her. We will not do the same,

will stand up for the good of our people and no one is going to catch us.

We will not go the same way and we will fight until we die. but the first one to get our last ingredient will have to fight while the other protects against the followers.

Chapter 17

Odyssey

Punch fountains on sale 5.99 For a thirty foot in diameter and sixty feet in circumference!

A home for 4.99 And tons more at the Triat of magic shop we cater sell give you amazingly low prices if you buy the house you get a swimming pool and three dollars back and we will even give you on3\le of your most wanted things!Owner Adodioodepiyuon (a-dad-e-oo-e-dep-e-u-on).

This has her written all over it who else do we know with yellow eyebrows.

I do not know and who else includes the word magic in their commercial.

Lots of people and besides let's get a move on we are going to be there in 2 seconds so slow down and hurry because we need to find that.

They will not challenge us until you turn fifteen which is in Two weeks and we need to get a move on they are going to be here about the same time someone touches it So we need to get a move on and okay here we are just the gum is Sorta in my desk and the new girl is here so make sure you pull the fire alarm then get the gum

after that all is well we just need to avoid and run so then we have to wait till I am five\teen so this we need to be very cautious.

Get it ru-

Beeep Beeep Beeep.

Got it are you crazy we have to wait until you turn 15 this is a disaster we have to live on our own for a whole six years this was the most no smartest idea ever now you have to fight her and now we need a flight back to the tent in Florida and we need to make sure we do not attract anyone so you must turn invisable And do not crash into anything it is weird enough to have me have great power but a nine year old power none of these people would ever dream of it and we have to fly straight through the solid brick roof or a glass window so I say roof and let me hang under you when flying through the roof because I can still get hurt while otherwise you c an not so you also have to look out for me to just because you are the star that does not mean you can be reckless like super heroes in TV and comic books.

Chapter 18

The truth the lies and the Secrets

To: the graves of Edward and Katey

From: Alica (secretly)

Me and Matthew are torn from the disappointment of your deaths matthew will not admit it so if you send a responce do not get matthew to notice. This race is dangerous because matthew has the power and he is only nine the problem is we have to run and cover our tracks we do not know what happened that night but we are stuck paranoid and scared if you can help us please do so this is no game.

Love Your Own Alica.

To: The graves of Edward and Katey

From: matthew (secretly)

Hey i am one of the most powerful people on there planet alica is really jealous and she is mad so do not talk to her about it but anyway we have to run for six years just because I touched a piece of gum!

Love your own Matthew.

To: the beloved sister of Kristean

From: Kristean (secretly)

This is a problem the part of his soul is taking control he is out to get me there is no escape so this is what you must carry on for me.

you must get to those ratty children they are the only hope for there parents and there is one other thing whatever you do do not go to me or you will be possessed the same as I have been I am not dead but trapped in my own body and this is one of the most dangerous things ever and if you fool around he will get you possessed not dead worse than me you will be trapped in your bad memories and you will be in sorrow this is no joke this is not a prank this is my lifgh.

chapter 19

Tryteu

We need to make all the ingredients into separate hybrid mixtures then we need to make the hybrid ingredients **Together** then we need to each wait overnight steam and then we have to drink it to make us hybrid together that will not include your additional power from the gum this is more power than you want I know you do not want to fight him this is dangerous and this potion thing will have to be done 100% right this is not easy and we have to succeed because we might get a life tied which mean that if we do not do this right we will have a permanent connection and that is not good this is not what you think some people will think this is amazing this is not it is not what you think in my dream I saw me and you this as power and a trapping wicked potion only the highest potion masters know how to do this correctly this might not be right but this is worth the shot we will have opposite powers and we will have the same after this potion except your powers will be stronger.

this is susimado one of the most daring situations only two people so far wanted to do this and that was mom and dad. My life is getting more and more dramatic and yours is getting more and more heroic. In our world you will be the hero this is not what I expect or anyone else

this is not something you want to announce in school or anywhere you will be caught she is more dangerous than you and me think she is getting more strong and she will not stop until her job is done. This is sacred unfair and brutal we will not run away after the six years the time has come.

*

The time is not to great to be fighting with me that is how we get separated then mad and never want to talk to each other. This is not the best time for that people never get good luck when things like this happen. If we do not run until you are fifteen things will be much worse.

My sister has problems with me being amazing and my sister is not.

We always have to fight don't we. We just can not get enough of each other can't we.

These people are crazy weird and do not do anything but talk we need to blend in so just talk like nothing is happening in your life .

Why can we just be normal people.

I do not know I guess this is what we have to do.

Why could our parents have finished this before us so we can just live a normal life.

Everyone is so strange I feel like someone is watching us.

Why can we just let this completely blow over.

This is part of our parents life our life our children's life.

This family will never be normal, it runs in the family.

Just let's run away until you are fifteen that would be about six years.

We always have to be unfortunate.

I guess that we have to run until we finally get to a place far far away where they will not find us.

I think we should just jump up and down with a sign that says our name that will mean hello right here come attack us matthew is not older or we could run.

It is already decided we are running we have to try this is not the best choice though if we disappear no one could ever find us but your invisibility only works in the air. and if we fly we will be to noticeable then they know we are there. If we run those strange people will notice us.

So why can't we blend in, like they do in the movies.

We do not know how to blend in we were not raised by those strangers.

So there is nothing we can do.

So we run away like I discussed with you.

Chapter 20

TRANSPORTATION MADNESS!!!

Dive roll spin jump hurry we can not do this unless done at the exact same time so do it we have to get that plane that plane has her in it you have to position our plane in case they shoot a missile if they do that dive to trees that will take the hit and shoot straight up and avoid the flames that will cause her to not be looking and her plane crashes, foolproof.

This is not what I expected when I said run I meant on the ground but this works to as long as we do not crash! Alica was driving a bright blue plane as Matthew was driving a dark red plane and she was driving a bright yellow plane that would have made you think that you were driving it the color was astonishing but the pilot not so much.

Quick dive jump roll loop tu- DIVE TO THE TREES.
YOU NEED TO DRIVE TO THE TREES TO LOOK.
AHHHHHHHHHHHHHHHHH.

I want to stick with ground or water.

We are on a ferry boat and it turns out that my brother is seasick.

This is not good and we had to rent the whole ferry to get to Alaska and it gets worse the ferry right behind us is hers.

so me and Matthew always need to duck because she likes pulling tricks she tried to throw a candle stick with

fire on it but only succeeded in burning herself but next she is trying ice.

Finally we made it with my sister's arm bruised my knee scraped and a cut on my head and she has a broken toe.

chapter 21
fifteen finally

Alica only woke up only on special occasions and today was one of them her fifteenth birthday is already here the day she would be fighting him.
Except she does not have to worry about it this was not a normal day either matthew is celebrating three years of being away from his original house in Boston.
I got you a present for fifteen years of luck.
A necklace with my birth stone?
With a magic that lets you control the elements.
How did you get some thing like that.
I found it mining while you were asleep.
The pair of seers headed to the next destination.
They hurried to find the thing they needed.A spaceship.
They hopped on board.
Three two one they where huriling to the planet Zelquey at amazing speed. They were forced back into there seats by the force and screaming. Suddenly they found themselves being tossed out of their seats from finally getting out of the gravitational pull.
I feel as light as a feather.
Me too.
Astroid alert astroid alert.
Hurry grab the control stick.
Left.
Right.
Down.
Up.
Loop.

Barrel roll.

Do something. Just avoid the astroid and save us.

I am trying.

Try shooting lasers, this is not the best time of my life.

The thing is flying out of control of course you are not having the best time of your life.

chapter 22
parachute pods

We got hit we have to use the parachute pods they can be used as a spaceship too.

Do not fly to earth still go the same way we are going and if we use those which are smaller can avoid the asteroids easier.

So go and jump into one of those pods and fast that debris is very close.

Hurry.

They jumped into a separate pod but stayed together they tried to avoid the debris matthew got a super near hit. They went and went by time they reached the planet they sped up like a meteor.

They went 20002 miles per hour increasing speed soon they reached 56732982.4622565 mach.

Finally kaboom. They landed safely screaming with joy then they found the list of powers then they headed back in the same routine.

They found kristean shot a freezing spell and he blocked it while alica froze solid. matthew shot a fire spell ducked and shot one at alica then Alica instantly. Then shot a metal spell at kristean and she just fell to the ground.

The ground rumbled beneath alica's feet and the ground disappeared and alica jumped just at the right time and avoided the sink hole for just her size.

Just because kristean is so dumb and frozen does not mean that she can not cast a spell.

Then out of confusion she popped up and cast a spell so powerful everyone saw it then A lady dropped unconscious.

The paramedics then police showed up there was tons of confusion and she had a lot of explaining to do. finally she said that the light from her fingers was a magic trick and the lady happened to drop unconscious. The police let her go and said what a great trick it was. The lady awoke alarmingly. Who is the dumb one now. Thought kristean reading Alica's mind.

chapter 23

Tybi

Tybi is the most wonderful subsistence but it is cursed as well you might grow an elephant trunk if you eat it. No one has ate it without any side effect. Going going nothing then kaboom you just have some bad fortune.the only way you do not get one is if you are extremely gifted or the creator of the curse.Actually it is the same time someone does something and someone does something at the same exactly.You need to do this exactly right or the thing will shock you and that will hurt me as well so get it right at the same time unless you want to get shocked.This is not easy though reflexes will help but not as much you need to know it is coming and when it is coming.So I will do the same timing as you the rest of my long life. This will be hard cause I do not want to twirl around like a girl.

Not that much the same but if I feel an emotion you will feel it too. Tybi is not easy and it never will be people are trying to make it less frequent but it has not happened. So if I get mad and you are on your date you will get mad at your date.

Exactly.

The timing is not working out well is it.

No.

Just give it time to kick in ow.

This is harder than anyone would expect I have not gotten one movement right.

I said Just give it time ow.

OK well fine!

You get back here right know.

No.

Fine.

They fought and fought soon became tired then they fell asleep but were still very mad at each other. Soon they caught and cut the connection and still went to the training lab. Then they quit because they knew it would not be resourceful.

chapter 24
500 times

We tried to run five hundred times so we had a major detour because Matthew got tired so we stopped running for a while and camped out the times were not easy they only had winter supplies and it was near summer they sleep without blankets and kept hanging out until matthew got better. Finally he got a new power now he is resistant to the cold. Alica finally got her first she could lift almost anything.

Look I can lift this truck. I still do not get why you got your first power before me?

I may be an early bloomer and you could be a late bloomer.

OK. We need to do this a five hundred times for your powers to return and you will come with a new one. This will happen to me too in a few months.

Ahhhh.

Run. She is near and that this is not the best time.

This is scary so I think we should hide then she will have to find us that is a better choice.

We could always get some defense and run and hide. That is what we should do.

That looks like a good place to go.

I think we should hi-run.

The times for these people are not easy they run hide sometimes fight get ambushed and so on. these are not lucky people. They have the worst memories with her she is mean cruel and disgusting. They have the worst classmates they are all bossy mean and unsanitary.

There lives are never good they hope that these six years go by fast because they are having troubles like everyone else they know. The classmates can not cheat off alica in test and she is having trouble with him their parents are no where to be seen. They are having desperate times everyone is and you might be having some bad problems a lot similar to this. Are their parents dead and is matthew going to win the fight or is the world going to have these great problems? he and alica now engulfed his and alica's blades into the flames this weapon was invinsible when they dropped there swords into the flames the voice said a sacrifice always is better your sacrifice will lead to a great reward.

Chapter 25

Wyn Try Teo and Yon

we still need to know about Wyn Try Teo and Yon. Arial bladed swords for hunting but later on came in for a more dangerous use. Arabian is the con try they lived in and the sister the sister is not good. These four brothers were attacked all in the same night but only one survived the blade the fourth and youngest Yon.

The sister Arabian feared that they were getting more powerful. She did not like the idea of her brothers being loyal and she was not being left in the dark so she did what she must have done and when the blade hit the fourth brother the blade never hit the boy happened to have a similar blade so when she took the strike the boy was ready he had heard the screams of pain and was beware of what was happening the three were not quick enough he was next and the sister which was the oldest thought since he was the youngest that he would be extremely easy but he had not and the boy had quick reflexes before the blade hit which the blade never hit the time the girl stopped with the blade only inches away from the chest the girl was extremely beautiful she was not meaning to do this it is just someone told her to do this and she felt sorry after what had happened this part in her told her to do this after she had seen of what happens to the loyal sisters brother she knew not to do this but that evil part in her kicked in and off now was one of these times this blade left only a small gash on the kings shoulder and the king said you should not have done this to my brothers now you will have to face me the kingdom depends on me and I will not let you mess it

up like you sabotaged the other kings lives now this is what you deserve Co tomate wa me to ma que te senquiu megu tetote omega te sa adfeute terontefon lou troteselbu guionte zetreoterfondukonondi!

This was a language you had never studied she has to do almost every language and he knew that she was not saying sorry or anything of that sort then at that moment she struck You tried to defend he made it. But the blades never touched they stopped and there was these purple and gold lace it was tying the swords together. She started speaking.

Rep der meronderfa jyi deavast muit fugheterreta!
She spoke in a voice unlike any voice he had ever heard but he knew this was not the sound of her voice but the sound of Imostrin's. Imostrin does not have a body of his own he takes peoples body's when he has gained trust this is what he has been doing for three years and...

*

the sister finally broke apart his connection with her this is not the end and now he has her body we have to find out about those two people. I have my laptop and it turns out their full names are Arabian blopten Nightday and his real name is Dylan webiner Nightday.

NIGHTDAY! They are our long lost brother and sister yours is fifteen and mine is nine.

he has been experiencing weird changes unlike no other they happen to be just like ours. I knew there was a missing link in our family it seems like that because there actually is.

I do remember you your brother and my sister. We all are supposed to be royal the three brothers died but we are average people in our world but in the country Arabian we all are famous Arabian is unknown though it still exist there is no tourist just the people that live there lets check the world GPS they should be in the ocean but

they are not they are on an oil derrick we need to fly there so since I can not fly I will be one of those talking GPS.

*

Turn left now turn right left right .

Finally they made it with out being spotted by airplanes or any other air vehicles.

This should be them both of them were short and scrawny like their other sister and brother.

Turns out that Arabian is sixteen and Dylan is the same age as matthew. It turns out they have been having vision of someone fighting.

When they arrived alica said hello sister and brother then they got scared and said go away I am not letting you get to me again.

This is not Imostrin. This is your long lost sister and your long lost brother you have to come with us Imostrin is here to this is not the best time to be scared of your siblings.

Then they both said synchronized I remember you. Are you still trying too get away from him?

Yes

we are to and Arabian do you have a drivers licence. yes.

Good that will be helpful in tons of places. have you come to save us.

Now yes later we have to fight against him when matthew turns fifteen that would be in six years so we have to do this together.

There is four of us against the rest of them. We have to do it we do not have a choice they will hunt us down it is not like they will stop it is not like we can do this every day we have one chance and one chance only so this is a lot of pressure we are all scared of this and if the rest

of the world knew what was happening they would be alarmed too.

It is not like there is only one universal colony we want to say hi to everyone else but we can not we have to jjoin school do not attract attetion and if we are going to have major problems if they show up say you feel sick and we get out of school wait o the side of the school with your walki talki and say stop selling anchobies and in reply we will say chickens are on fire and hurry out of the schoo,l with s9ome excuse if you do not get a response soon just ignore sand move on to the next person simple enough.

So stop selling anchobies and chickens are on fire.

*

“Stop selling anchobies.”

“Chickens are on fire.”

“Chickens are on fire.”

“Chickens are on fire.”

“What is it?”

“Some people are being mean.”

“That is what people do in this grade, Arabian.”

“But do not do it or you get in trouble.”

“So just act natural.”

chapter 26

fit in

We survived the first day of school so that is good now we just need a place to stay this is not going to be easy this is easier than my normal life.

Just we need to find a apartment do not be suspicious just act like your parents told Arabian to go get some groceries and that she needs to take us to school ever day in the morning besides weekends.

That is how we will survive the life until Matthew is old enough this gets boring after a while so if you stand out do that walkie talkie thing and if you see someone from school on the weekend does not mean that they are following you if you get invited to a party go and do not ask for tea only drink what they serve at the party punch soda water and stuff like that. This is not that hard when you go to a party and do not eat or drink too much.

Do not listen to classical music listen to R&B, rock, hip hop, rap and find songs that people listen to these days and do not steal their stuff to see what music they listen to and when you play games do not play preschool games.

Do all this stuff and when people ask your address give it to them and do your new address.

9087 parker drive gentoo hollimontan.

Act fabulous like the rest of the girls and the boys act how they act.

chapter 27
day 2 of no school

Art then bolegy then physical education then lunch then technology then writing then math.

Physical education then bolegy then technology then lunch then art then math then writing.

Then matthew always has social studies math then science and then his brother has the same scedule.

The scedule changes daily so be invisable.

If we can not be seen then we have nothing to worry about.

hey where is Dylan?

right here you said to be invisible.

I did not mean literally invisible.if someone saw something just appear on the desk they probably are going to raiser suspicion.

so just do not act weird you know the drill so hurry school starts in only five minutes.

So Arabian is driving us to school then bam out of no where a police car driving 100 hundred miles an hour pops out on the right but somehow the car turned out of control they knew they were going to die then something amazing happened the other car flew up to a ninety

degree angle they knew that matthew did that the car was suspended right at that angle the cop was thinking how is this possible the police man was screaming all of the sudden the car dropped to the ground and then the man jumped out of his car and he was mad and scared he was about ready to pull out weapon or call for backup when he touched his gun or something like that the man flung strait to his car and all his weapons went straight to matthew and he knew that he had nothing he hopped back into his car matthew made sure that he could not get anywhere he was stuck matthew had got his car again hung it up side down.

Wait i am not resistant to the cold I can make things move without touching them!

The car still suspended now back on the road and now driving straight at them now you would think the car would ram into them but instead it flipped right over their car this car will not give up they were getting this car to move all the sudden the car pops up again this time with two more Dylan and Matthew try to get the cars to get into weird posistons.

Slam bam clack screech.

The cars got banged up one barrel rolled at amazing speed the cars are still going the one that barrel rolled got back up and aimed for a head on collision while the other car aimed for a souvier back hit but amazingly both cars bunny hopped over that car and crashed with the help of matthew no passenger these cars were remote control but life size the flames showered down but instead of flame these were comets! Comets that were chasing them they did not realize the last car that came down the street at speeds that the car was not made for the man had a way of reasoning he was not going to stop he was crashed by the biggest truck ever the truck did not know what he did he just kept going. We zig

zaged home through traffic lights wondering why they went out here in the first place then by time school was over they realized they accidentally missed school two girls were in major trouble while the two boys had nothing to worry about but then they heard a rumbling noise there was a motorcycle trying to slam into their house and then we all know that matthew can make things move with his mind so he threw the rider off so we named him Dada when ever he did that.
So we all call it this time Alica got it.
Dada!

Why do you have to say that?

They argued knowing that they bucked the rider of the motorcycle off and for good measure they threw the motorcycle to Jupiter right in the great red spot. One of Imostrin's followers appeared he went to pull out his dagger but it was not there then instead of his old pointy thing black sand appeared whirling round and round at the palm of Matthew's hand then one of the most beautiful blades appeared in his hands with gold and on the other side a metal he has never seen it was amazing. earlier he engulfed his and Alica's blades into the flames this weapon was invisible when they dropped their swords into the flames the voice said a sacrifice always is better your sacrifice will lead to a great reward. Now everyone in the family was worrying so then outta nowhere matthew sliced then the follower froze solid and got swept away in the wind like dirt the whole group applauded. The encounters get worse and worse. Matthew was do busy reading his book to realize that the girls were plotting to prank him.

chapter 28
the prank

when matthew woke up that morning he was rolled up so tight in his sleeping bag he could barely move so he rolled to the door on top of the roof of his apartment and he rolled to the edge of the roof before he could stop himself he rolled over the edge then slipping from water (there was no water except where he slid then he rolled past the gutter over the sky of 700 feet he felt air born but then he thought I am actually fall born from the force of wind at about 676 feet is intense then with no warning he stopped the sleeping bag fell off now he was wrapped in ropes he did not notice before when he reached it where the rope only wrapped one time around him and he was only about nine inches from his nose to hit the ground and get broken he realized this was a trick set up by the girls then he bounded back up the sensation was scary and full of suspense.

the girls would not do any real harm so then the pattern continued up and down when going down the hair on him popped out behind him like spikes when he shot up his hair was still being pulled by gravity then noticed he could just suspend himself in front of the girls faces that is what he did the girls leaned against the window he made the window shatter the girls fell down to the cars,screaming this was not the idea.....

To Be Continued...

This story on most cases will not be finished in our second book:

Ecl2pse: Omega
(it will be finished on the 6th book)
